

Don't Wait—*Vaccinate*

Vaccinations can protect children against 10 diseases:

- Diphtheria • Tetanus • Pertussis • Polio • Measles • Mumps •
- Rubella • Chickenpox • Hepatitis B • Hib meningitis •

A series of vaccines by the age of 2 can protect against these diseases.

Ask your health care provider if your baby is up-to-date.

If you don't have a doctor, call 1-800-232-2522 (English) or 1-800-232-0233 (Spanish)
to locate the nearest place to get vaccinations.
