

Facility Information:

Sandia National Laboratories (SNL) is operated and managed by Sandia Corporation, a wholly owned subsidiary of Lockheed Martin Corporation. Sandia Corporation operates Sandia National Laboratories as a [contractor](#) for the U.S. Department of Energy's National Nuclear Security Administration (NNSA) and supports numerous federal, state, and local government agencies, companies, and organizations. As a Federally Funded Research and Development Center (FFRDC), Sandia may perform work for industry responding to certain types of federal government solicitations.

A strong science, technology, and engineering foundation enables Sandia's mission through a capable research staff working at the forefront of innovation, collaborative research with universities and companies, and discretionary research projects with significant potential impact.

In keeping with our vision to be the nation's premier science and engineering laboratory for national security and technology innovation, we recruit the best and the brightest, equip them with world-class research tools and facilities, and provide opportunities to collaborate with technical experts from many different scientific disciplines.

Sandia has two site locations in Livermore, California in the heart of the San Francisco Bay Area and in Albuquerque, NM. For additional information please review our [Sandia National Laboratories Overview](#) and our [Homeland Security and Defense](#) programs.

Start and End Dates:

DHS summer student appointments are 40 hours per week for 10 consecutive weeks. The start date is flexible with most students beginning May-June and ending no later than the last week in August. DHS students will start their assignment on a Monday and will be given a brief overview by their organization or lab site.

Relocation:

SNL is unable to supplement or reimburse for travel costs to and from the Sandia site location.

Housing Allowance:

Students who have a permanent home address and school address both greater than 50 miles from the Sandia site location are eligible for reimbursement of housing and utility costs up to \$1200 per month (NM) or \$1400 per month (CA) for the duration of the 10 week appointment. Reimbursement may only be provided for the duration of time when the student is onsite at SNL plus a week prior and/or after the appointment has ended for moving purposes.

Students are responsible for making their own housing arrangements, but will be provided information about local housing options.

Poster Session or Oral Presentation:

Participants are expected to present their summer projects toward the conclusion of their appointment. Sandia hosts an annual Intern Symposium (typically held the last week of July or first week of August) where DHS students may participate.
