

Philip J. Christman
Vice President, Product Creation
Truck Development & Technology Center
International Truck and Engine Corporation

Phil Christman serves as Vice President, Product Creation for International Truck and Engine Corporation, one of the world's largest truck and engine manufacturers. He assumed this position in November 2002.

Phil began his engineering career with International in 1986 and has held positions from entry-level engineering through Director for both the Heavy and Medium Vehicle Product Centers during his years with the company. Phil was Vice President of Engineering during the launch of the industry's first High Performance Vehicle.

Phil serves on the Fort Wayne Board of Junior Achievement.

Phil holds a bachelor's degree in mechanical engineering from Indiana Institute of Technology and a master's in business administration from Ball State University.
