

Mike Savonis
Team Leader for Air Quality
Office of Natural and Human Environment
Federal Highway Administration
U.S. Department of Transportation

Since 1996 Mike Savonis and his team are responsible for policy development and administration of the Congestion Mitigation and Air Quality Improvement (CMAQ) Program, air quality research, public education and the Federal Highway Administration (FHWA) energy and global climate change efforts. Mike helped to found the U.S. Department of Transportation Center for Climate Change and Environmental Forecasting in 1999. He has been with FHWA since 1992. Previously, Mike worked for the New York Metropolitan Transportation Authority in capital program development and strategic planning.

He holds a Master's degree in Regional Planning from Cornell University.
