

## DID YOU KNOW? THE NATIONAL ENERGY TECHNOLOGY LABORATORY:

- Is the only national laboratory both owned and operated by DOE
- Has more than 300 scientists and engineers conducting research
- Has three main locations: Morgantown, WV; Pittsburgh, PA; and Albany, OR
- Is involved in research throughout the United States and more than 40 countries

### Mission

NETL's mission is to advance energy options that fuel our economy, strengthen our security, and improve our environment.

### Key Issues and Mandates

NETL's more than 1,300 research projects focus on six issues:

- Secure and reliable energy supplies
- Clean power generation
- Development of a hydrogen economy
- Climate change
- Energy efficiency and renewable energy
- Critical infrastructure assurance

## LOCATIONS

Want to make a difference? Join the search for solutions to America's energy challenges.

NETL's research internships offered through the Oak Ridge Institute of Science and Education (ORISE) are designed to encourage students, recent graduates, and faculty to explore the challenges and opportunities available in energy research. Appointments are competitive, provide a stipend, and vary in length. Through the program, participants gain access to some of the nation's best laboratory facilities and professional opportunities.

For more information and to apply for internships, visit <http://www.ornl.gov/netl>.

## PROFESSIONAL INTERNSHIP PROGRAM

**Who:**

College and university undergraduate and graduate students; post-baccalaureates within one year of graduation

**Disciplines:**

Mathematics; computer science; physical science; environmental science; materials science; engineering; chemistry; chemical engineering; geology; physics; statistics

**When:**

Applications are always open; for best results apply by February 15 for summer term, June 1 for fall, and October 1 for spring

**Where:**

Oregon, Pennsylvania, West Virginia

**Benefits:**

Weekly stipend; limited travel assistance; off-campus tuition and fees may be paid

## POSTGRADUATE RESEARCH PROGRAM

**Who:**

Graduates who received their master's degree within last three years, or doctorate within last five years

**Disciplines:**

Mathematics; computer science; physical science; environmental science; materials science; engineering; chemistry; chemical engineering; geology; physics; statistics

**When:**

Applications are accepted and awards are made on a continuing basis; one-year appointments are renewable

**Where:**

Oregon, Pennsylvania, West Virginia

**Benefits:**

Stipend based on degree level; limited travel/moving assistance; limited stipend for medical insurance

## FACULTY RESEARCH PARTICIPATION PROGRAM

**Who:**

College and university full-time faculty who want to participate in ongoing energy research and development

**Disciplines:**

Mathematics; computer science; physical science; environmental science; materials science; engineering; chemistry; chemical engineering; geology; physics; statistics

**When:**

Applications are accepted and awards are made on a continuing basis; preferred deadline for summer appointments is February 15

**Where:**

Oregon, Pennsylvania, West Virginia

**Benefits:**

Monthly stipend based on base academic salary; limited travel assistance; sabbaticals require 50 percent funding by home college/university
