

Postgraduate Research Opportunities
Environmental Control and Engineering Division
Directorate of Risk Management
Anniston Army Depot
Anniston, Alabama

Engineering: The Environmental Control and Engineering Division, Directorate of Risk Management, at Anniston Army Depot (ANAD) in Anniston, Alabama, has an urgent need to fill a position for a Postgraduate Research Associate in chemical, civil, environmental, or mechanical engineering, or other related areas. An immediate opening exists for an outstanding bachelors, masters or Ph.D. recipient with experience in environmental and materials assessment, analysis, remediation and control systems. Team-focused studies and major duties would include integrating with dynamic, multidisciplinary research groups performing work in Hazardous Material Management; Installation Restoration; Pollution Prevention; Forestry Management; Natural and Cultural Resources; Waste Water Treatment; Recycling and Refuse Management.

Initially, this is a one-year appointment with the possibility of a second year extension. Selection will be based on academic record, experience, recommendations, and research interests. Stipend and potential relocation allowance are based on academic level, experience and expertise.

Requirements:

- Completed bachelors, masters or PhD not more than three years prior to start
- US citizen or U.S. legal permanent resident alien
- Excellent verbal and written communication skills
- Previous research/academic work in engineering areas of interest to ANAD

This project is administered for the Anniston Army Depot by the Oak Ridge Institute for Science and Education (ORISE). For an application, send a copy of a current resume to:

Jeffrey Johnson
