

# Linkage of UC Contract S&T Evaluations to DOE Strategic Plans

## Mission

*To foster a secure and reliable energy system that is environmentally and economically sustainable, to be a responsible steward of the Nation's nuclear weapons, to clean up our own facilities, and to support continued United States leadership in science and technology.*

## Vision

We aspire to achieve the following vision:

The Department of Energy, through its leadership in science and technology, will continue to advance U.S. energy, environmental, economic, and national security by being:

- A key contributor to ensure that the United States has a flexible, clean efficient, and equitable system of energy supply and end-use with minimal vulnerability to disruption;
- A vital contributor to reducing the global nuclear danger through its national security, nuclear safety, and nonproliferation activities;
- A world leader in environmental restoration, nuclear materials stabilization, waste management, facilities decommissioning, and pollution prevention;
- A major partner in world class science and technology through its National Laboratories, research centers, university research, and its educational and information dissemination programs; and
- A safe and rewarding workplace that is recognized for business excellence, nurtures creativity, is trusted, and delivers results.

## DOE Science & Technology Criteria

- Quality of Science
- Relevance to National Needs and Agency Missions
- Performance in the Technical Development and Operation of Major Research Facilities
- Programmatic Performance and Planning

## UC President's Council

### Assessments

- S&T Panel
- National Security Panel
- ES&H Panel
