

SPECIAL TASK ORDER REQUIREMENTS

G-1 Right of First Refusal of Employment

To the extent not inconsistent with provision G-20, the Contractor shall give the incumbent contractor employees who have been or will be adversely affected or separated as a result of award the right of first refusal for employment openings under the contract in positions for which they are qualified. Within 30 days after award, the contractor will request a list of employees from the incumbent of those who have been or will adversely affected or separated as a result of award, within 120 days after contract performance begins. The Contractor will submit a report to the Contracting Officer identifying by name and position of each individual identified from the list of employees who are hired within 90 days after contract performance begins.

G-2 Award Term

A. Award Term - Incentive

1. Based on an assessment of the contractor's performance against the performance measures identified below, the contractor may earn additional term, in six -month increments, not to exceed a total of twenty-four award term months. This assessment shall be accomplished by the Government, at the conclusion of each semi-annual period. The Government shall evaluate the contractor's performance for a determination of award term points based on excellent performance under this task order. An accumulation of performance points over the one year base period and 2 (two) one-year option periods may entitle the contractor to additional term. If the government Term Determining Official (TDO) determines that the contractor's performance was excellent, then the contractor earns an extension in task order term.
2. The award term assessment will be provided to the contractor in writing from the Contracting Officer. The additional term awarded under the assessment becomes a legal entitlement to the contractor, provided that there is a continued need and the availability of funds. Unlike an option, the award term must be incorporated into the contract bilaterally.

B. Membership/Responsibilities

The award-term decision is made by the TDO, with input from the Award-Term Review Board (ATRB). The ATRB consists of a chairperson, the contracting officer, a recorder, other functional area participants, advisory members, and the technical monitors.

Term-Determining Official - The TDO approves the award-term plan and any significant changes to it. The TDO reviews the recommendations of the ATRB, considers all pertinent data, and determines the earned award-term points for each evaluation period. The TDO appoints the ATRB chairperson.

Award-Term Review Board Chairperson - The ATRB chairperson chairs the meetings of the ATRB and appoints the non-mandatory members of the board and the performance monitors. The ATRB chairperson briefs the TDO on recommended earned term amounts and the contractor's overall performance and recommends award-term plan changes to the TDO Award Term Review Board. ATRB members review performance monitors' evaluation of the contractor's performance, consider all information from pertinent sources, prepare interim performance reports, and arrive at the earned award-term points recommendation to be presented to the TDO. The ATRB will also recommend changes to this plan. An assessment of the contractor's performance will be done on a semi annual basis.

ATRB Recorder - The ATRB recorder is responsible for coordinating the administrative actions required by the performance monitors, the ATRB, and the TDO.

Contracting Officer (CO) - The CO is the liaison between contractor and government personnel. Subsequent to the TDO decision, the CO evaluates the award-term points available and modifies the task order period of performance, as necessary, to reflect the decision.

Technical Monitor (TM) - The TM monitors maintain written records of the contractor's performance in their assigned evaluation areas so that a fair and accurate evaluation is obtained. Monitors prepare interim and end-of-period evaluation reports as directed by the ATRB.

C. Award-Term Processes

1. Definitions

- a. Available Award-Term Points. The earned award-term points will be based on the contractor's performance during each evaluation period. An accumulation of positive points (e.g., +50, +75, or +100) is required for a one-year term

extension, while an accumulation of negative points (e.g., -50, -75, or -100) results in a one-term reduction in the task order period.

b. Evaluation Criteria - If changes to the criteria are to be made the CO must give specific notice in writing to the contractor of any change to the evaluation criteria prior to the start of a new evaluation period. Modifications to the plan shall take effect in the next evaluation period. Proposed changes to the award-term plan will be bilateral. If either party desires a change to the award-term plan and a mutual agreement cannot be reached, the original award-term plan will remain in effect.

c. Interim Evaluation Process - Interim evaluations will be conducted at least every six months. At the discretion of the TDO, interim evaluations may take place more frequently (e.g., at major milestones). The ATRB determines the interim evaluation results and notifies the contractor of the strengths and weaknesses for the current evaluation period. The CO may also issue letters at any other time when it is deemed necessary to highlight areas of government concern.

2. Task Monitor Contractor Performance Report

The award term process begins with the task monitors completing a Contractor Performance Report for each task assignment within fifteen days after the end of the evaluation period. This form contains the 5 evaluation criteria as stipulated in the Task Order and provides the Task Monitor an opportunity to submit a numerical score and supporting narrative.

The evaluation is provided in a scaled response format ranging from 0 - 4 in each performance category. All task monitor numeric ratings are then averaged into an overall grade point average (GPA). Each numeric rating is matched against a corresponding award term range as indicated below. The award term point range gives the ATRB the flexibility to recommend a specific point score while taking into consideration all rating factors such as the task monitor evaluations and the opinions of the Contracting Officer and the Contracting Officer Representative.

<u>Numeric</u>		<u>Adjectival</u>		<u>GPA</u>		<u>Point Range</u>
4	=	Outstanding	=	3.5 - 4.0	=	90 - 100
3	=	Very Good	=	2.6 - 3.4	=	75 - 89
2	=	Satisfactory	=	1.6 - 2.5	=	50 - 74
1	=	Unsatisfactory	=	1.0 - 1.5	=	0 - 49
0	=	Did not evaluate	=	0.0 - .99	=	0

3. Contractor Self-Assessment - Following each evaluation period, the contractor may provide a self-assessment to the CO within fifteen working days after the end of the evaluation period. This written assessment of the contractor's performance throughout the evaluation period may also contain any information that could be reasonably expected to assist the ATRB in evaluating its performance. The self-assessment may not exceed 25 pages.
4. ATRB Report - Technical monitors submit their evaluation reports to the ATRB fifteen calendar days after the end of the evaluation period. The ATRB prepares its evaluation report and recommendation regarding earned or unearned award-term points. The ATRB briefs the evaluation report, and recommendation to the TDO within 45 calendar days after the end of the evaluation period. The TDO determines the overall award-term points for the evaluation period within 60 calendar days after each evaluation period. The TDO letter informs the contractor of the earned award-term points and the total cumulative points. Upon the accumulation of sufficient award-term-points, the CO issues a task order modification within 30 calendar days after the TDO's decision is made authorizing an award extension or reduction based on the earned or unearned award-term points.

D. Evaluation Categories

The contractor will receive an overall adjectival rating on its performance of task assignments issued under this task order. In evaluating the contractor(s) performance, the following factors set forth below will be considered by the ATRB.

(1) Performance Schedule

The degree of Contractor conformance with schedules as established in the applicable Task Orders; the Contractor's early identification of schedule problems and inventiveness in overcoming them to maintain progress; and were task order deliverables submitted in accordance with established schedules.

(2) Management Performance

The Contractor's effective and economical organization of all areas of effort including management and technical effort required meeting task order requirements. Particularly to be considered are: (i) establishment of internal controls to assure proper supervision of the work force and economical completion of assigned tasks; (ii) the coordination and cooperation with cognizant DOE officials to resolve problems that may arise in communications, planning, scheduling or other related areas; and (iii) overall effective use of available resources, dependability and general coordination with the customer, including response to dynamic/urgent

11/20/2001

4 of 14

AtchG-SPECIALTOREQ.doc

requirements.

(3) Technical Performance

The Contractor's technical progress based on (i) overall technical approach and rationale; (ii) thoroughness of approach; (iii) innovativeness and creativity in approach; and (iv) integration of technical efforts.

(4) Product Quality

The overall quality of the contractor's deliverable work products; the extent and accuracy of any documentation, references, and background material accompanying a finished deliverable product; and the appropriateness of the format and clarity of written products, considering the intended audience for the deliverable product.

(5) Cost Control

The Contractor's: (i) actual costs together with realistic cost projections as they relate to estimated task order cost; (ii) cost planning; (iii) timely and accurate reporting; (iv) clarity and traceability of cost relative to work schedule/technical progress; and (v) cost reduction/cost avoidance initiatives.

G-3 Ordering Procedures

Performance under this contract shall be subject to the following ordering procedure:

(a) The Contractor shall incur costs under this contract only in the performance of Task Assignments and revisions to Task Assignments issued in accordance with this ordering procedure. No other costs are authorized without the express written consent of the Contracting Officer (CO).

(b) From time to time during the period of performance of this contract, Task Assignments will be issued in writing by the Contracting Officer or designee to the Contractor designating (1) the task to be performed; (2) the schedule of performance; (3) authorized travel; and (4) any Government-furnished property. Such Task Assignments will specify deliverables and required delivery dates. Deliverables may consist of statements, charts, reports, briefing notes, tabulations, view graphs, and other forms of presentation as appropriate. If appropriate, based on 48 CFR 945, property which is Government-furnished or Contractor acquired will also be listed in the property schedules of this contract as well as in the individual Task Assignments.

11/20/2001

5 of 14

AtchG-SPECIALTOREQ.doc

(c) Task Assignments will be issued on forms specified and provided by the Government. Task Assignments will be numbered. A modification to the Task Assignment will be identified by an alpha designation following the existing Task Assignment number indicating the revision sequence.

(d) The Contractor shall submit within ten (10) calendar days, after receipt of each Task Assignment issued by the Contracting Officer or designee, a Contractor Task Plan on forms specified and provided by the Government. The Task Plan is the Contractor's overall estimate for the completion of the Task Assignment and shall include the following:

- (1) Date of commencement of work, and any necessary revision to the schedule of performance.
- (2) Direct Productive Labor Hours (DPLH), both straight and overtime, (if authorized), on a monthly basis by applicable labor category, and the total DPLH, including those in (4) below, estimated to complete the task.
- (3) The travel and material estimate.
- (4) An estimate for subcontractors and consultants; including the DPLH, if applicable.
- (5) Estimated computer use time required, if applicable.
- (6) Other pertinent information, indirect costs, consultants, inter-divisional transfers, etc.
- (7) The total price for completion of the Task Assignment.

(e) The Contractor's Task Plan is subject to the review of the Contracting Officer or designee. After a Task Assignment is issued, if any revision becomes necessary to the estimated cost (more than + or - 5% variance), or level of effort (more than + or - 5% variance), the Contractor shall promptly submit to the Contracting Officer or designee a revised Task Plan with explanatory notes.

(f) This ordering procedure is of a lesser order of precedence than the "Limitation of Cost," "Limitation of Funds," "Completion Dates," "Term of Contract," or "Level of Effort" clauses of the contract. The Contractor is not authorized to incur costs on Task Assignments, which are not in compliance with any of those clauses of the contract.

G-4 Security Requirement

Q clearances are required for all employees. If a proposed individual does not have a current Q clearance, your proposal methodology should explain how this individual will be utilized to accomplish the requirements of the contract without adverse impact (cost, technical and time) to the program during the period of the clearance process. If during the performance of this contract an employee has their security clearance suspended or determination is made that a Q clearance will not be granted, the contractor shall immediately removed the employee from the contract and all labor charges will cease at that time. References: 10 CFR 710, (January 1, 2001), "Criteria and Procedures for Determining Eligibility for Access to Classified Matter or Special Nuclear Material"; DOE 472.1-1A -Personnel Security Program Manual; DOE Order 472.1B (3/24/97)-Personnel Security Activities (03/24/97); DOE N. 251.40, dated 5/3/01, extends this Directive until 12/31/01.

G-5 952.204.2 Security (SEP 1997)

(a) *Responsibility.* It is the contractor's duty to safeguard all classified information, special nuclear material, and other DOE property. The contractor shall, in accordance with DOE security regulations and requirements, be responsible for safeguarding all classified information and protecting against sabotage, espionage, loss or theft of the classified documents and material in the contractor's possession in connection with the performance of work under this contract. Except as otherwise expressly provided in this contract, the contractor shall, upon completion or termination of this contract, transmit to DOE any classified matter in the possession of the contractor or any person under the contractor's control in connection with performance of this contract. If retention by the contractor of any classified matter is required after the completion or termination of the contract, the contractor shall identify the items and types or categories of matter proposed for retention, the reasons for the retention of the matter, and the proposed period of retention. If the retention is approved by the contracting officer, the security provisions of the contract shall continue to be applicable to the matter retained. Special nuclear material shall not be retained after the completion or termination of the contract.

(b) *Regulations.* The contractor agrees to comply with all security regulations and requirements of DOE in effect on the date of award.

(c) *Definition of classified information.* The term "classified information" means Restricted Data, Formerly Restricted Data, or National Security Information.

(d) *Definition of restricted data.* The term "Restricted Data" means all data concerning:

(1) design, manufacture, or utilization of atomic weapons;

(2) the production of special nuclear material; or

(3) the use of special nuclear material in the production of energy, but shall not include data declassified or removed from the Restricted Data category pursuant to Section 142 of the Atomic Energy Act of 1954, as amended.

(e) *Definition of formerly restricted data.* The term "Formerly Restricted Data" means all data removed from the Restricted Data category under section 142d. of the Atomic Energy Act of 1954, as amended.

(f) *Definition of National Security Information.* The term "National Security Information" means any information or material, regardless of its physical form or characteristics, that is owned by, produced for or by, or is under the control of the United States Government, that has been determined pursuant to Executive Order 12356 or prior Orders to require protection against unauthorized disclosure, and which is so designated.

(g) *Definition of Special Nuclear Material (SNM).* SNM means:

(1) plutonium, uranium enriched in the isotope 233 or in the isotope 235, and any other material which pursuant to the provisions of Section 51 of the Atomic Energy Act of 1954, as amended, has been determined to be special nuclear material, but does not include source material; or

(2) any material artificially enriched by any of the foregoing, but does not include source material.

(h) *Security clearance of personnel.* The contractor shall not permit any individual to have access to any classified information, except in accordance with the Atomic Energy Act of 1954, as amended, Executive Order 12356, and the DOE's regulations or requirements applicable to the particular level and category of classified information to which access is required.

(i) *Criminal liability.* It is understood that disclosure of any classified information relating to the work or services ordered hereunder to any person not entitled to receive it, or failure to safeguard any classified information that may come to the contractor or any person under the contractor's control in connection with work under this contract, may subject the contractor, its agents, employees, or subcontractors to criminal liability under the laws of the United States. (See the Atomic Energy Act of 1954, as amended, 42 U.S.C. 2011 et seq.; 18 U.S.C. 793 and 794; and Executive Order 12356).

(j) *Subcontracts and purchase orders.* Except as otherwise authorized in writing by the contracting officer, the contractor shall insert provisions similar to the foregoing in all subcontracts and purchase orders under this contract.

G-6 952.204.70 Classification/Declassification (SEP 1997)

In the performance of work under this contract, the contractor or subcontractor shall comply with all provisions of the Department of Energy's regulations and mandatory DOE directives which apply to work involving the classification and declassification of information, documents, or material. In this section, "information" means facts, data, or knowledge itself; "document" means the physical medium on or in which information is recorded; and "material" means a product or substance which contains or reveals information, regardless of its physical form or characteristics. Classified information is "Restricted Data" and "Formerly Restricted Data" (classified under the Atomic Energy Act of 1954, as amended) and "National Security Information" (classified under Executive Order 12958 or prior Executive Orders).

The original decision to classify or declassify information is considered an inherently Governmental function. For this reason, only Government personnel may serve as original classifiers, i.e., Federal Government Original Classifiers. Other personnel (Government or contractor) may serve as derivative classifiers which involves making classification decisions based upon classification guidance which reflect decisions made by Federal Government Original Classifiers.

The contractor or subcontractor shall ensure that any document or material that may contain classified information is reviewed by either a Federal Government or a Contractor Derivative Classifier in accordance with classification regulations including mandatory DOE directives and classification/declassification guidance furnished to the contractor by the Department of Energy to determine whether it contains classified information prior to dissemination. For information which is not addressed in classification/declassification guidance, but whose sensitivity appears to warrant classification, the contractor or subcontractor shall ensure that such information is reviewed by a Federal Government Original Classifier.

In addition, the contractor or subcontractor shall ensure that existing classified documents (containing either Restricted Data or Formerly Restricted Data or National Security Information) which are in its possession or under its control are periodically reviewed by a Federal Government or Contractor Derivative Declassifier in accordance with classification regulations, mandatory DOE directives and classification/declassification guidance furnished to the contractor by the Department of Energy to determine if the documents are no longer appropriately classified. Priorities for declassification review of classified documents shall be based on the degree of public and researcher interest and the likelihood of declassification upon review. Documents which no longer contain classified information are to be declassified. Declassified documents then shall be reviewed to determine if they are publicly releasable. Documents which are declassified and determined to be publicly releasable are to be made available to the public in order to maximize the public's access to as much Government information as possible while minimizing security costs.

11/20/2001

9 of 14

AtchG-SPECIALTOREQ.doc

The contractor or subcontractor shall insert this clause in any subcontract which involves or may involve access to classified information.

G-7 952.204-74 Foreign Ownership, Control, OR Influence Over Contractor (APR 1984)

(a) For purposes of this clause, a foreign interest is defined as any of the following:

- (1) A foreign government or foreign government agency;
- (2) Any form of business enterprise organized under the laws of any country other than the United States or its possessions;
- (3) Any form of business enterprise organized or incorporated under the laws of the U.S., or a State or other jurisdiction within the U.S., which
is owned, controlled, or influenced by a foreign government, agency, firm, corporation or person; or
- (4) Any person who is not a U.S. citizen.

(b) Foreign ownership, control, or influence (FOCI) means the situation where the degree of ownership, control, or influence over a contractor by a foreign interest is such that a reasonable basis exists for concluding that compromise of classified information, special nuclear material as defined in 10 CFR Part 710, may result.

(c) For purposes of this clause, subcontractor means any subcontractor at any tier and the term "contracting officer" shall mean DOE contracting officer. When this clause is included in a subcontract, the term "contractor" shall mean subcontractor and the term "contract" shall mean subcontract.

(d) The contractor shall immediately provide the contracting officer written notice of any changes in the extent and nature of FOCI over the contractor which would affect the answers to the questions presented in DEAR 952.204-73. Further, notice of changes in ownership or control which are required to be reported to the Securities and Exchange Commission, the Federal Trade Commission, or the Department of Justice shall also be furnished concurrently to the contracting officer.

(e) In those cases where a contractor has changes involving FOCI, the DOE must determine whether the changes will pose an undue risk to the common defense and security. In making this

11/20/2001

determination, the contracting officer shall consider proposals made by the contractor to avoid or mitigate foreign influences.

(f) If the contracting officer at any time determines that the contractor is, or is potentially, subject to FOCI, the contractor shall comply with such instructions as the contracting officer shall provide in writing to safeguard any classified information or significant quantity of special nuclear material.

(g) The contractor agrees to insert terms that conform substantially to the language of this clause including this paragraph (g) in all subcontracts under this contract that will require access to classified information or a significant quantity of special nuclear material. Additionally, the contractor shall require such subcontractors to submit a completed certification required in DEAR 952.204-73 prior to award of a subcontract. Information to be provided by a subcontractor pursuant to this clause may be submitted directly to the contracting officer.

(h) Information submitted by the contractor or any affected subcontractor as required pursuant to this clause shall be treated by DOE to the extent permitted by law, as business or financial information submitted in confidence to be used solely for purposes of evaluating FOCI.

(i) The requirements of this clause are in addition to the requirement that a contractor obtain and retain the security clearances required by the contract. This clause shall not operate as a limitation on DOE's rights, including rights to terminate this contract.

(j) The contracting officer may terminate this contract for default either if the contractor fails to meet obligations imposed by this clause, e.g., provide the information require by this clause, comply with the contracting officer's instructions about safeguarding classified information, or make this clause applicable to subcontractors, or if, in the contracting officer's judgment, the contractor creates an FOCI situation in order to avoid performance or a termination for default. The contracting officer may terminate this contract for convenience if the contractor becomes FOCI and the reasons other than avoidance of performance of the contract, cannot, or chooses not to, avoid or mitigate the FOCI problem.

G-8 Unclassified Controlled Nuclear Information (UNCI)

Documents originating by the Contractor or furnished by DOE to the Contractor may contain Unclassified Controlled Nuclear Information (UNCI) as determined pursuant to section 148 of the Atomic Energy Act, as amended. The Contractor shall be responsible for protecting such information from authorized dissemination in accordance in accordance with DOE regulations and directives.

G-9 Lobbying Restrictions

The contractor agrees that none of the funds obligated on this contract shall be expended directly or indirectly, to influence Congressional action on any legislation or appropriation matters pending before Congress, other than to communicate to Members of Congress as described in 18 USC 1913. This restriction is in addition to those prescribed elsewhere in statute and regulation.

G-10 Confidentiality of Information

(a) To the extent that the work under this contract requires that the Contractor be given access to confidential or proprietary business, technical, or financial information belonging to the Government or other companies, the Contractor shall, after receipt thereof, treat such information as confidential and agree not to appropriate such information to its own use or to disclose such information to third parties unless specifically authorized by the Contracting Officer in writing. The foregoing obligations, however, shall not apply to:

- (1) Information which, at the time of receipt by the Contractor, is in the public domain;
- (2) Information which is published after receipt thereof by the Contractor or otherwise becomes part of the public domain through no fault of the Contractor;
- (3) Information which the Contractor can demonstrate was in his possession at the time of receipt thereof and was not acquired directly or indirectly from the Government or other companies;
- (4) Information which the Contractor can demonstrate was received by it from a third party who did not require the Contractor to hold it in confidence.

(b) The Contractor shall obtain the written agreement, in a form satisfactory to the Contracting Officer, of each employee permitted access, whereby the employee agrees that he will not discuss, divulge or disclose any such information or data to any person or entity except those persons within the Contractor's organization directly concerned with the performance of the contract.

11/20/2001

12 of 14

AtchG-SPECIALTOREQ.doc

(c) The Contractor agrees, if requested by the Government, to sign an agreement identical, in all material respects, to the provisions of this clause, with each company supplying information to the Contractor under this contract, and to supply a copy of such agreement to the Contracting Officer. From time to time upon request of the Contracting Officer, the Contractor shall supply the Government with reports itemizing information received as confidential or proprietary and setting forth the company or companies from which the Contractor received such information.

(d) The Contractor agrees that upon request by DOE it will execute a DOE-approved agreement with any party whose facilities or proprietary data it is given access to or is furnished, restricting use and disclosure of the data or the information obtained from the facilities. Upon request by DOE, such an agreement shall also be signed by Contractor personnel.

(e) This clause shall flow down to all subcontracts.

G-11 Acceptance (FEB 1987)

Acceptance of all work and effort under this task order (including "Reporting Requirements," if any) shall be accomplished by the technical monitor assigned to the task assignment issued under this task order, or any duly designated representative. Work products that do not meet performance standards will be corrected by the contractor at no additional cost to the Government.

G-12 Options To Extend the Term of the Services

(a) The Government may unilaterally extend the term of this task order by written notice to the Contractor within the term of the contract, provided that the Government shall give the Contractor a preliminary written notice of its intent to extend at least 30 days before the task order expires. The preliminary notice does not commit the Government to an extension.

(b) If the Government exercises this option, the extended task order shall be considered to include this option provision.

(c) The total duration of this task order including the exercise of all below stated options under this clause shall not exceed 36 months.

(d) Should the Government exercise any options hereunder, all contractual terms and conditions shall apply during the option(s) period

G.13 Exercise of Option(s) (SEP 1995)

The Department of Energy has included an option to extend the term of this task order. In order to demonstrate the value it places on quality performance, the Department has provided a mechanism for continuing a contractual relationship with a successful contractor that performs at a level which meets or exceeds quality performance expectations as communicated to the contractor, in writing by the Contracting Officer or designated representative. When deciding whether to exercise the option, the Contracting Officer will consider the quality of the contractor's performance under this contract.

G-14 Conformance with Laws, Permits and Licenses

In performing this contract, the contractor shall comply with applicable Federal, State and local laws and regulations; and shall be responsible for obtaining such licenses, permits and other authorities applicable to the performance of this work.

The following Federal Acquisition Regulation (FAR) and Department of Energy Acquisition Regulation (DEAR) Clauses are incorporated by reference:

- G-15 DEAR 952.203-70 Whistleblower Protection for Contractor Employees (Dec. 2000)
