

**TRAVEL MANUAL**  
**May 29, 2002**

**ATTACHMENT E-10**

**FOREIGN TRAVEL HEALTH CONCERNS**

Before travel to a foreign country employees and supervisors must become familiar with possible health and security risks.

**Responsibilities**

Managers

- Identify as soon as possible travel destination.
- Inform security, and Occupational Health so arrangements and information can be available.

Employees

- Call CDC and request information about destination.
- Follow up with Occupational Health regarding updating of needed immunizations.
- Speak with security and foreign contacts about possible precautions.
- Complete visa/passport information and identify time limits for immunizations.

Occupational Health

- Help identify required and/or recommended immunizations workers for destination.
- Assist in acquiring medications needed for travel.
- Identify possible health care facilities in destination.
