

U.S. Department of Energy - Oak Ridge Office
Human Capital Assessment Group
Training Course Bulletin

Course Name: PMCDP - PLANNING FOR PERFORMANCE-BASED
MANAGEMENT CONTRACTING

Course Number: 001030

Session Number: 0043

Description: This course is part of the Project Management Career Development Program (PMCDP). It is required for PMCDP Level 1 certification, but it applies to all levels of project director development. This course encompasses the entire performance-based management contracting planning process starting from DOE's strategic planning process, to developing a statement of work, through performance measurement. Application of the information is reinforced through a series of practical exercises. Performance-based management elements that will be discussed include quality assurance surveillance plans; contract management and administration plans; risk assessments and analysis; incentive plans; and performance evaluation and measurement plans.

Audience: Federal project directors, prospective project directors, and integrated project team members. The course is designed for project directors with at least three years experience in project management who currently work in a project management position on a project with a total project cost (TPC) of at least 5 to 20 million dollars; however, it will be beneficial to PMCDP participants seeking higher levels of certification. This course will be relevant for personnel involved directly or indirectly in a wide variety of DOE projects or activities related to program/project management or contract management.

Vendor: Colleague Consulting LLC

Instructor: Ronald Simpson

Slots: 20

Location: Building 2714, Room C-2
