Training Course Bulletin

Course Name: ePEGASUS (SC) FOR GENERAL USERS

Course Number: 002292

Session Number: 0001: February 23, 2012

0002: February 28, 2012

Description: ePegasus (SC) is an electronic assessment and oversight activity tracking system for the Department of Energy Federal offices. SC has adapted this system to meet SCMS requirements. The system allows the users to plan, schedule, track, and trend assessment data, issues, actions, and lessons learned for their entity (Site/Organization). This training is designed for individuals who will be using ePegasus for entering assessments in the Master Assessment Schedule (similar to the Integrated Assessment Schedule) and for scheduling, tracking and trending oversight activities. This training includes hands-on experience on ePegasus functions and features and insights on how they are applied to achieve the requirements and objectives of the Federal oversight activities.
