Importance of Knowing Your T&Cs

Per 2 CFR 200.338 Remedies for Noncompliance, if a non-Federal entity fails to comply with Federal statutes, regulations or the terms and conditions of a Federal award, the Federal awarding agency may impose additional conditions, as described in §200.207 Specific conditions.

- Remove from Payment via ASAP/Require Submission of Invoices
- Temporarily withhold cash payments pending correction of the deficiency
- Denial of future SBIR/STTR Applications (due to Poor Past Performance)
- Withholding of Continuation Funding (Phase II Only)

If the Federal awarding agency determines that noncompliance cannot be remedied by imposing additional conditions, the Federal awarding agency may take one or more of the following actions, as appropriate in the circumstances:

- Disallow all or part of the grant costs not in compliance (Cost Recovery)
- Wholly or partly suspend or terminate the Federal award.
- Initiate suspension or debarment proceedings (of individuals and/or the Company)
- Withhold further Federal awards for the project or program.
- Take other remedies that may be legally available.
Audits and Other Findings:

- Recipient did not meet the minimum Research Institution Level of Effort (30%) for an STTR and therefore DOE is sought over $18K in cost recovery. The recipient appealed the DOE Contracting Officer’s decision to the DOE Senior Procurement Executive, and was denied. The recipient recently paid DOE the money sought plus interest.

- Recipient was acquired by a large, foreign business and did not notify DOE. DOE challenged the size status of the recipient to the SBA. SBA ruled in DOE’s favor; as a result, recipient owes DOE $520K.
