CONVECTIVE PROCESSES AGENDA – Draft 6/17/20

Adam Varble/Hugh Morrison: Introduction (5 min)

Recent and upcoming datasets of interest:
Adam Varble: Cloud, Aerosol, and Complex Terrain Interactions (CACTI) Field Campaign (5 min)
Bill Gustafson: Large-eddy ARM Symbiotic Simulation and Observation for Deep Convection (LASSO-DC) (5 min)
Mike Jensen: TRacking Aerosol Convection interactions ExpeRiment (TRACER) (5 min)
Scott Giangrande: Southeast US AMF3 Deployment (5 min)
Mike Jensen/Adam Varble: Cloud and Precipitation Measurements and Science Group (CPMSG) Recommendations to ARM (10 min)
Questions/Discussion: 30 min

Science talks to focus discussion around ongoing research and future ARM/ASR directions:
John Peters: Convective Updrafts/Entrainment (10 min)
Courtney Schumacher: MCSs/Organization (10 min)
Discussion: (35 min)
