

DHS Headquarters - Office of the Chief Information Officer (OCIO)

Mission: The mission of the DHS OCIO is to deliver DHS-wide information technology services that provide DHS end users with reliable, flexible, accessible, and secure technology through a single, DHS-wide information technology (IT) infrastructure model that promotes cybersecurity.

Cyber Snapshot: OCIO leads DHS efforts related to the Federal Information Security Management Act (FISMA). They generate DHS cybersecurity policy, and manage key IT and cybersecurity issues at the department level.

The OCIO mission is to develop and maintain a single, DHS-wide information technology (IT) infrastructure environment that is reliable, scalable, flexible, maintainable, accessible and secure, ensuring operational excellence.

DHS Headquarters - Office of the Chief Information Officer (OCIO) - Chief Information Security Officer (CISO)

OCIO CISO is especially interested in students that have completed coursework or previous work assignments related to: threat analysis; risk assessment; incident response; security architecture and engineering; network monitoring/network defense; cybersecurity research and technical writing; basic knowledge and understanding of industry best practices regarding policies, governance, strategies and standards in cybersecurity; and testing and development.

DHS Headquarters - Office of the Chief Information Officer (OCIO) - Chief Technology Officer (CTO)

OCIO CTO is especially interested in students that have completed coursework or previous work assignments related to: Security Provision (Information Assurance Compliance, Enterprise Architecture, Technology Demonstration, Systems Requirements Planning, Systems Development), Operate and Maintain (Knowledge Management, Customer & Tech Support) Oversight & Development (Strategic Planning & Policy, Education and Training).
