

Standardizing DHS Math and Science Materials for Mass Distribution in K-12 Schools

**Dr. Mildred Ofosu, Assistant VP -
Office of Sponsored Programs and
Research**

**In Collaboration
with**

**Phyllis H. Hillwig, Ed.D.
Chief Operating Officer**

The Task

1. To leverage findings from MSU staff and partners to create materials that can be used for professional development training of teachers.
2. To have materials available for local outreach as well as national outreach in print and electronic formats.
3. To ensure that materials meet state and national standards, are teacher and student friendly, and clearly transparent with respect to when and where it can be used in a school curriculum.

The Plan

Spring 2008:

- MSU and partners will meet to decide topics, length, type of activities.
- MSU will work with content creation company to ensure that materials can be used for mass distribution.

Summer 2008

- MSU materials will be distributed and shared among all DHS University centers, schools, and on STEM
- Look at leveraging DOE funding for further module development and teacher workshops at MSU
